

KIRAN KISHORE VENKATESAN

Coimbatore, Tamil Nadu

(+91) 7708875789 | kiransjobs7@gmail.com | [linkedin.com/in/v-kiran-kishore](https://www.linkedin.com/in/v-kiran-kishore) | github.com/kirankishoreV-07

Executive Summary

B.Tech CSE (AI) student with hands-on experience in building **intelligent, data-driven software systems** that solve real-world problems. Strong background in **AI-assisted applications, backend integration, and structured data handling**, with practical exposure to dashboards, analytics, and decision-oriented system design. Enjoys combining AI, data, and engineering to build scalable, reliable, and user-focused solutions.

Education

B.Tech in Computer Science and Engineering (Artificial Intelligence)

Amrita School of AI, Amrita Vishwa Vidyapeetham, Coimbatore

CGPA: 8.06

2023 – 2027

High School

Chaitanya Senior Secondary School, Coimbatore

HSC: 78%

2021 – 2023

Technical Skills

Programming Languages: Python, C++, C, SQL, Java (Basics), JavaScript (Basics), HTML/CSS

AI & Machine Learning: PyTorch, OpenCV, Hugging Face Transformers, DistilBERT, TensorFlow Lite, YOLOv11, RF-DETR, LLMs, Prompt Engineering

Backend & Data: FastAPI, REST APIs, Supabase, Structured Data Handling, System Integration

Cloud & Developer Tools: GCP, Google Maps Platform, Cloudinary, Roboflow, Git/GitHub, VS Code

Experience

NetKathir Technologies Pvt. Ltd.

AI Developer Intern

Puducherry, India

Apr 2025 – May 2025

Developed an **AI-powered 3D medical conversational avatar** using NLP and real-time speech processing.

Latlon Technologies Pvt. Ltd.

AI/ML Intern

Coimbatore, India

May 2026 – June 2026

Contributed significantly to developing an **autonomous AI-powered developer environment** that independently **analyzes repositories, implements features, and modernizes legacy codebases** end-to-end while demonstrating strong technical skills and dedication.

Projects

Lazarus – Multi-Agent AI Code Modernization Platform

May 2026 – Jul 2026

AWS Bedrock, Claude, FastAPI, Docker, AWS Lambda, Step Functions, DynamoDB

- Built a **multi-agent AI pipeline** with Inspector, Architect, Builder, Deployer, and Validator agents for **code analysis, dependency extraction, and automated legacy-code migration**.
- Designed a **self-healing workflow** to analyze runtime logs, trace failures, generate targeted patches, and trigger automated **rebuild and validation cycles**.
- Designed an **AWS-based serverless architecture** using Lambda, Step Functions, API Gateway, and DynamoDB, with **Docker-based isolated build and deployment stages**.

Skeleton-Based Sign Language Recognition using GCN–TCN

Oct 2025 – Apr 2026

PyTorch, MediaPipe, OpenCV, Python

- Built a **Ten-class sentence-level ISL recognition pipeline** using **OpenCV** and **MediaPipe Holistic** to extract **75 pose and hand landmarks** with 3D coordinates from videos.
- Prototyped **variance-based landmark ranking** and reconstructed a reduced **35-node skeleton graph** to analyse informative joints and improve computational efficiency.
- Designed a **two-layer Spatial GCN** and **four-block dilated residual TCN**, with **sequence masking and length-aware pooling** to learn spatial joint relationships and variable-length motion patterns.

UrbanPulse – AI-Based Civic Issue Monitoring & Decision Support System

Dec 2025 – Mar 2026

Roboflow, DistilBERT, Grad-CAM, Google Maps API, Supabase, React Native

- Built an **end-to-end multimodal civic monitoring platform** using **Roboflow CV**, **DistilBERT** for urgency and sentiment, **Sarvam STT** for 11 Indian languages, social-media ingestion, and **Grad-CAM XAI**.
- Engineered a **geospatial multi-signal priority engine** combining **image severity (40%)**, **geo-proximity (30%)**, **NLP urgency (20%)**, and **social trends (10%)**, with geo-validation, spoof detection, routing, and a live **3-km heatmap**.
- Developed **LSTM-based predictive maintenance** for **30/60/90-day zone-level issue forecasting** with cost and time-to-critical estimates, integrated into a **React Native + Supabase** cloud platform.

Achievements

Finalist, **Civic Stack Hackathon** – IIT Delhi Finalist, **AWS AI for Bharat Hackathon** Finalist, **Technova Hackathon**
Finalist, **2nd SmallAI Hackathon**
